

MICROMACHINE CENTER

MEMS Industry Forum

- MEMS Industry Forum (MIF) was formed to accelerate industrialization of MEMS/Micro-Nanotechnologies and its secretariat is established in Micromachine Center.
- MIF is a global network of MEMS players. It contributes to building up competitive advantages of manufacturing industry through technology development of the next generation MEMS/Nano devices.

Recommendation on Industrial/Technical Policy and Coordination among Industry/Government/Academy

- Activities on recommendation to industrial policy.
- Activities on proposal of the technical R&D projects.
- Conducting of “Workshop for Smart Sensing & Network”.

Implementing Surveys and Advancing Standardization

- Publishing reports on MEMS industrial/technical trend.
- Activities on international standardization as the secretariat country of IEC/SC47F (MEMS).

Promoting International Cooperation

- Hosting and participating in meetings worldwide, including “World Micromachine Summit”.
- Interacting with overseas industrial/academic associations on MEMS/Micro-Nanotechnologies.

Establishment of R & D Infrastructure for MEMS

- “MNOIC(Micro Nano Open Innovation Center) ” using the 8/12 inches MEMS facility owned by AIST(Advanced Industrial Science and Technology).
- Promotion of the outcomes for National/NEDO projects.
- Seminars, trainings etc.

Public Relations

- Hosting exhibitions and seminars, including “MEMS Sensing & Network System”.

Network meeting of MEMS forum

Workshop for Smart Sensing & Network

IEC/SC47F WG

World Micromachine Summit 2019

MNOIC
(MicroNano Open Innovation Center)

MICROMACHINE CENTER MISSION

Micromachine Center (MMC) is a foundation dedicated to support establishment of technological basis of future MEMS / Micromachine, as well as to support development of MEMS / Micromachine industries.

In cooperation with government, academy and industry, MMC leads activities to accelerate industrialization such as national R&D projects, various global & domestic networking, education & training, and Exhibition Micromachine /MEMS.

SUPPORTING COMPANIES AND ORGANIZATIONS

- Established: January 23, 1992
- Chairman: Itaru NISHIZAWA
 - CTO, Hitachi, Ltd.
- Executive Director: Hidekazu HASEGAWA
- Supporting members: 28 companies and 5 organizations (as of Apr. 2023)

Azbil Corporation
Canon Inc.
DAISHINKU CORP.
DENSHO ENGINEERING CO.,LTD
DENSO Corporation
GLOBALNET CO.,Ltd.
Hitachi, Ltd.
Japan Electronics and Information
Technology Industries Association :JEITA
Japan Robot Association :JARA
Japan Society of Next Generation
Sensor Technology
JTB Communication Design, Inc.
MEMS CORE Co., Ltd.
Mitsubishi Electric Corporation
Mitsubishi Materials Corporation
Mizuho Research & Technologies, Ltd.
Mobile Computing Promotion Consortium
